

HIDE AND SEEK LEARNING INTENTIONS

I CAN ...

- travel in different ways around the playground.
- use roll play to build my understanding and enjoyment of a story outdoors.
- use items from my yeti tool kit to focus my attention and explore in different ways.
- understand how my senses can help me explore.
- consider safe places for yetis to hide in my local environment, and assess risk.
- communicate my discoveries effectively and listen to the discoveries of others.
- I have identified interesting features in my local environment.
- I can use simple map making to record these features.
- I am aware of the Growth Mindset concept of YET.
- discuss the difference 'keeping trying' made to the yetis in the topic yeti story.
- use mathematical (position / size) to identify hiding places for the yetis.
- share my space with others outdoors.
