

YETI I'SPY AT V&A DUNDEE

Did you know that there's a little clan of yetis hiding out at the V&A Dundee? They love exploring at night when you humans have gone to bed and have been trying out their new polaroid camera at the PHOTO CITY exhibition.

The clan send back all their discoveries to Yeti HQ, but they've mixed up their photos. Can you help by matching what you find at the exhibition to the photos on the other side of the sheet? Use the QR code to find out what the yetis thought about Photo City and how they arrived at the V&A Dundee.
