

ENCOURAGING A GROWTH MINDSET

YETI SPEAK

Every time you try, you get a little bit better!

You've done a great job so far, lets use what you've done to work it out together.

Did you try anything new today?

It's really great you kept going today even when it got tough.

What did you do that made you think hard today?

Wow, you've really practised, look how much better you've got!

Well done! You must have worked really hard!

You've really used that mistake to help you learn!

I like the way you tried lots of things until you worked it out!

Was there anything tricky today that you had to work out?

Don't worry if it's tricky, you just haven't got it YET.

I'm really proud of you for keeping trying, even though it was difficult.

Is there anything different we could try to work it out?
