

YETI TALK

BE INSPIRED
TO LEARN

FIXED MINDSET

Look at
Dot dancing!

Dot never
stops dancing.
Never mind her,
she's just a show
off!

I'll never be able to
dance like that. What's
the point trying to
learn?

GROWTH MINDSET

Look at
Dot dancing!

Dot's a great
dancer! You could
learn to dance
too if you
practise like her!

Would you like me
to ask Dot's Mum
where she goes to
learn? You could
learn too!

YES
PLEASE!

I love learning
to dance!

HELPING CHILDREN BE INSPIRED TO LEARN

Helping your child to understand that people who have skills they admire started as beginners gives them confidence to try new things. Although some people have natural ability, it's important for children to understand that they also still need to put in a lot of practice to become good at their chosen field.

Understanding the process of determination to grow and improve gives children a proper understanding of cause and effect -

EFFORT + PERSEVERANCE = ACHIEVEMENT !
